CIDEON Consulting⁺

Guarantee Excellent Performance with the Latest Software

Tired of slow procurement processes and tight software consulting budgets? Are your release updates delayed due to high costs and do you have little to no resources for training? It's time to make your CAD and PDM software work for you, not against you.

Despite these challenges, you want to make sure that your software is always up to date and that your employees can work optimally with the systems used. After all, only up-to-date and properly utilized software will help your company move forward and support you in critical processes and operations.

CIDEON Consulting⁺: Service Without Compromise

With the consulting and service subscription CIDEON Consulting⁺ you will receive permanent and proactive support for your engineering and development from our experts at CIDEON – at a fixed all-inclusive price.

Your Advantages

The CIDEON Consulting⁺ subscription model promises unbureaucratic help and continuous support:

- Simplified procurement process
- Rapid implementation of planned tasks
- Continuous process optimization
- Single Point of Contact
- Improved quality of deliverables
- Reliable budget planning

As part of the service package CIDEON Consulting⁺, hotfixes, essential adjustments and configurations are handled quickly. In this way, we help you to move forward without having to set budgets for change requests months in advance.
